

# High-Performance Packaging Designed for Food Safety

Emballator food tins are specially developed for industries where long-term preservation and strict hygiene are essential.

Built to endure the entire filling and processing chain—from heating and cooling to long-term storage and distribution—they protect taste and freshness by remaining fully resistant to light, odour, and oxygen.

### Print

The tins can be supplied coated for labelling or with your own decorative design.

### 100% Recyclability

Recycling keeps resources in circulation and supports a circular economy. Metal recycles forever.

### Safe storage

Metal is a sturdy and reliable material that ensures the content is kept safe.

## Food tins product assortment

Food tins are aimed for different types of canned food. Depending on diameter they are available with different types of ends for seaming. The external is available in plain, lacquered or decorated to customers' request. The internal is available with protective coating.

### TINS

	Nominal volume (L)	Diameter (mm)	Height (mm)	Weight (g)
2-Piece tin	0,25	127 <sup>1</sup>	35	45
3-piece tin	0,5	127 <sup>1</sup>	58	70
3-piece tin	3,19	153 <sup>1</sup>	179	250
3-piece tin	2,92	155 <sup>1</sup>	162	222
3-piece tin	8,54	212 <sup>1,2</sup>	247	460
